

## APPALACHIAN RENAISSANCE INITIATIVE

Educational Excellence in the Heart of the Mountains

Tech Tuesday Update (10/14/14)

### ARI Tech in the News

Kentucky School Advocate – October Edition

**Technology “Races” to the Classroom** by Jennifer Wohlleb

Seventeen eastern Kentucky school districts are using federal grant money to explore what may be “the next step in the evolution of education.” The project has established innovation coordinators in each district to help teachers incorporate technology into the classroom. [Read More](#)

### Upcoming Important Dates

**October 14<sup>th</sup>** -- Majority Leader Roles and Responsibilities – an informational LYNC session on Tuesday, October 14, 2014 beginning at 9:00 am. For further details contact [kelli.thompson@pike.kyschools.us](mailto:kelli.thompson@pike.kyschools.us)

**October 16<sup>th</sup>** – Education Development Suite (EDS) Training at KVEC, 9:00-12:00 by Cathy White of KDE. For more information contact [abbie.combs@hazard.kyschools.us](mailto:abbie.combs@hazard.kyschools.us)

**October 21<sup>st</sup>** – ISLN with special presentation on World Language Program Review, 9:00-12:00 at KVEC. For more information contact [abbie.combs@hazard.kyschools.us](mailto:abbie.combs@hazard.kyschools.us)

**October 21<sup>st</sup>** – For 2014, KySTE will be partnering with the University of Kentucky College of Education for the Fall Training Event. This year's theme is

Digital Transformation. Click on the link to learn more: [Fall Event page at kyste.org](#). *Registration is now open.*

**October 24<sup>th</sup>** – ARI Promising Practice Summit at the Pikeville Expo Center. The Promising Practice Summit will use Twitter as a backchannel for communication. The official hashtag is *#ARIPPS*. For further details about the Twitter backchannel contact [andrew.castle@johnson.kyschools.us](mailto:andrew.castle@johnson.kyschools.us). To learn more about the summit contact [jeff.hawkins@hazard.kyschools.us](mailto:jeff.hawkins@hazard.kyschools.us)

**November 1<sup>st</sup>** – Kentucky Valley Academic League(KVAL), FPS workshop, 9:00 AM via MondoPad. For further details contact [kelli.thompson@pike.kyschools.us](mailto:kelli.thompson@pike.kyschools.us)

**November 14<sup>th</sup>** – *Edivation* Training(Formerly PD360), location TBA. For more information contact [abbie.combs@hazard.kyschools.us](mailto:abbie.combs@hazard.kyschools.us)

**November 21<sup>st</sup>** – ISLN. For more information contact [abbie.combs@hazard.kyschools.us](mailto:abbie.combs@hazard.kyschools.us)

**November 22<sup>nd</sup>** – *2 Smart 4 Drugs* Academic Tournament, Alice Lloyd College. For further details contact [kelli.thompson@pike.kyschools.us](mailto:kelli.thompson@pike.kyschools.us)

**November 24<sup>th</sup>** – Entrepreneurial Showcase at KVEC. Setup and registration beginning at 8:30 AM and judging beginning at 10:00 AM. For further details contact [kelli.thompson@pike.kyschools.us](mailto:kelli.thompson@pike.kyschools.us)

## Questions of the Week (Previous Questions of the Week Attached)

**Repeat** *We are having some unexplained glitches since the release of the new WIN Learning platform? We really have liked using WIN in the past and have teachers who would like to use it for the first time. What can we do?*

Nicole Stanley is our regions WIN representative and can be reached by email at [nstanley@winlearning.com](mailto:nstanley@winlearning.com) and by phone at 606-625-5590. She can be your first point of contact for unexplained issues.

However, Steve Fain of WIN([sfain@winlearning.com](mailto:sfain@winlearning.com)) shared last week that there are several additional sites that need to be “whitelisted” for content and non-caching/proxy on the TMG server. It is very important that you provide the below list to your DTC/CIO, so they can add the below items to the “whitelist.” These are for http and http: The below sites going unlisted could be the source of problems you are experiencing.

\*.[wincrsystem.com/](http://wincrsystem.com/)\*

\*.[wincshost.com/](http://wincshost.com/)\*

<a href="http://apicdn.learnosity.com">apicdn.learnosity.com</a>	<a href="http://reportscdn.learnosity.com">reportscdn.learnosity.com</a>

**Repeat** *What internet browser should we use with the [WIN Learning Portal](#)?*

With the WIN Learning System moving to HTML5, all browsers should work, but WIN Learning suggests using Google Chrome.

**Repeat** *My district is not sure what devices they should tag for inventory purposes since ARI will retain ownership of the NxGN classroom setup for the duration of the grant? We are concerned that the MondoPad setup has no tags for KVEC nor for us.*

On page 4 of KDE's [Capital Asset Guide](#) under subheading "Capital Asset Definitions and Guidelines" it states, "*Workstations/Laptops are no longer required to be capitalized, unless they meet the threshold, but should be tracked for control purposes.*" Threshold limits are suggested as \$5,000, but this may differ in each district.

In the Next Generation Classroom Assurance Agreement under section 3, item 8 it states, "Next generation classroom equipment remains the property of the ARI grant for its duration, upon which the district assumes ownership." Because of this condition, ARI technically owns the NxGN setup and thus needs KVEC asset tags. For tracking purposes, districts may choose to tag the equipment as well.

In our haste to turn Joseph loose to deliver MondoPad classroom setups we made an error in not having him tag the equipment with a KVEC asset sticker. This was completed for NxGN Teacher Laptops, Innovation Coordinator iPad Airs and

Student Senate iPad Airls, but not the MondoPad setup. Andrew Castle will be providing each Innovation Coordinator with KVEC asset tags and a description of where to place tags on the NxGN classroom setup and how to locate serial numbers for recording.

**Repeat** *Ok, I understand the need to tag the NxGN classroom setup and that my district may tag it as well, but what about the Q-Tablet that goes with the MondoPad that was just delivered?*

The Q-Tablet that is paired with the MondoPad is part of the NxGN classroom setup and was purchased by ARI. It will need a KVEC asset tag. Andrew will be explaining this to Innovation Coordinators on October 8<sup>th</sup> in Letcher County. It is ok for the district to tag the Q-Tablet as well.

**Repeat** *I am almost there, but what about the 1 to 1 devices we purchased with the \$7,000 to be paired with the MondoPad? Does KVEC asset tag them as well?*

Since the 1 to 1 devices districts purchased was a reimbursement amount, there will be no need for a KVEC asset tag to be placed on them. The district will need to follow its own policies for placing district asset tags.

**Repeat** *One last question. What about devices purchased with the 1 to 1 money (approximately \$11.50 per student)? Do they need KVEC asset tags?*

No, these devices were purchased by the district with ARI reimbursing up to a maximum amount. KVEC asset tags will not need to be placed on the devices, but districts will need to follow their own policies for tagging.

## New Docking Station Delivery (Update from Joseph)

By now, all the hardware (MondoPads, Q-Tablets, and Accessories) has been delivered to every district. The tablet docks are a nice addition to the teachers Q-Tablet. This will allow you to set the docking station on a desk and charge it when not in use.

Take the Power Supply provided with the Q-Tablet and plug it into the backside of the Docking Station. This will allow you to charge by

simply setting the tablet on the dock. Also on the back of the docking station are 2 - USB ports and an HDMI out port that will display the image from the Q-Tablet much like a standard PC. Once again, if you have any questions or issues please feel free to send an email to [joseph.smith@LTNTechnologies.com](mailto:joseph.smith@LTNTechnologies.com).

## Repeat MondoPad & Q-Tablet Delivery

I am pleased to report all MondoPad and Q-Tablets have been delivered to the districts. The only thing we have left to deliver is the docking stations for them. Docking stations will be mailed out to each District ASAP. We are expecting the delivery in our warehouse by the end of the week.

If you remember from the training, these tablets are to control the MondoPad and enhance the technology and flexibility you have in the classroom. They are fully equipped tablets with Windows 8.1, Microsoft Office, and 3 different InFocus programs.

*Controlview* – When you load this program on your Q-Tablet it will automatically scan to try and find your MondoPad. If it's found, click on it and enter the 4 digit code which will be shown at the top of your screen next to a symbol that looks like a key. If it's not found, please click on the plus symbol up on the top bar and type in the IP address of your MondoPad. Give it a generic name and click ok.

The code will change on every restart and anytime you hit the “reset meeting” button in the MondoPad shell software. Once connected, this

**Repeat MondoPad & Q-Tablet Delivery** (continued)

program will display your MondoPad screen on the tablet. This will let you walk around the classroom and control the MondoPad with the tablets touchscreen. Don't forget to use your stylus to make things a little easier.

*Present2* – When this program is loaded on your Q-Tablet it will look similar to *Control View* and works the same way as far as connections. This program will mirror your tablets screen onto the MondoPad. *Bignote* annotation tools can be used to annotate ovetop of anything on your tablets screen. It's very similar to the MondoPad annotation tools.

Once again, please report any issues with your MondoPad setup to Joseph with Lite the Nite Technologies at [joseph.smith@LTNTechnologies.com](mailto:joseph.smith@LTNTechnologies.com)

# Promising Practice

## Action Required Upcoming Summit Registration – by Jeff Hawkins

The flyer is for the Appalachian Renaissance Initiative Promising Practices Summit. It features a blue background with a sun and mountain logo at the top. The text includes the event title, location (Eastern Kentucky Expo Center, Pikeville, KY), and dates (October 24, 2014, 8:30 a.m. to 3:30 p.m.). There are three small photos showing people at a table. Below the photos is a quote: "Participants leave the Summit equipped with the knowledge and network connections to advance bold innovations. The Summit serves as a catalyst for energizing and accelerating strategies to improve the quality of education for all learners, everywhere." Underneath is a section titled "EVENT HIGHLIGHTS" with a list of activities: 125 authentic demonstrations of teaching and learning innovations, original student performances (with ELLA Credit provided), regional networking, College and Career Ready Roadshow, and a wehcast to a national audience. It also mentions lunch and free parking for registered participants. At the bottom left is a QR code, and at the bottom right is the KVEC logo (Kentucky Valley Educational Council) with the text "The Heart of the Mountains". A registration URL is provided at the bottom: [https://docs.google.com/forms/d/1Nk0UHQBDz8E8DANVCGAWpM5cXN7zeNDP5Q7D/viewform?usp=send\\_form](https://docs.google.com/forms/d/1Nk0UHQBDz8E8DANVCGAWpM5cXN7zeNDP5Q7D/viewform?usp=send_form).

I am attaching an updated Promising Practices Flyer to this Tech Tuesday Update. This flyer has a working electronic [registration link](#) and working QR code link. Please pass this on to anyone in your distribution lists that would be interested or would benefit by attending.

For those folk who will attend – WE'RE ASKING THAT EVERYONE – INCLUDING PARTICIPANTS, PRESENTERS, STUDENTS, AND MEMBERS OF BOTH NEXT GEN ACADEMIES – REGISTER ELECTRONICALLY so that we can have an accurate count for lunch/breakfast and for materials/handouts.

[REGISTRATION LINK](#)

## New All Systems “Go” in Harlan County – posted on the **HOLLER** by Jeff Phillips

Harlan County Schools Integration Specialist Mike Scott, Superintendent Mike Howard and Assistant Superintendent Brent Roark conducted a test today by connecting with all schools via Lync and MondoPads in preparation for student council meetings, distance learning

and distribution of information to faculty and staff. The test was a success and several events are now scheduled to utilize this technology provided through ARI.

**New Collaborative Directory** – posted on the **HOLLER** by Kelli Thompson

*“Just want to ask if there is anyone in a classroom (or other location) that would like to link with other teachers through the Mondo Board? If you would like to link with other teachers and classrooms in other districts, list your name, grade level and content area and post below. We will create a directory of teachers that would like to allow an opportunity for students to collaborate.”* If you would like to become part of the directory, you can also send the requested information to [kelli.thompson@pike.kyschools.us](mailto:kelli.thompson@pike.kyschools.us)

**New Cardboard Challenge** – posted on the **HOLLER** by Carmen Coleman

Great inspiration for those into PBL, creativity, design thinking and engineering– <http://cardboardchallenge.com>. Check out these pics from a KY school who took part in the Global Challenge today. Let’s do this region-wide next year!

## Repeat Former Governor Visits Floyd County Classroom by Rita Caudill

We have been discussing career/college and we thought former Governor Paul Patton would be an opportunity of a lifetime for many of the students in our class.

I team teach with Ms. Susan Tackett at WD Osborne Elementary where we have forty-six 5th graders in one large classroom. Our students wrote the questions and they were pre-approved prior to our SKYPE session. A couple of the questions on

the list were not asked because he answered them while answering other questions. See questions below.

He spoke to the students about growing up without electricity and what a good childhood he had. He described a typical day as Governor of Kentucky. He showed the students a picture in his office of himself as a coal miner and showed them his Championship ring. He talked to them about the importance of his education and theirs. When asked how he wanted to be remembered generations from now, his answer was, "Kentucky's Education Governor."

There is a slide show of his visit on our class page at <http://oes5thgrade.class.weebly.com/careers.html>

1. What has been the MOST exciting event during your tenure at UPIKE?
2. What are some of your duties as Chancellor of UPIKE?
3. What do you feel has been your greatest accomplishment in being the President/Chancellor of UPike so far?
4. How important do you feel it is to have a college education or vocational degree?
5. Does KY have a tax free savings plan for college?
6. How did you feel when you got the news that you were elected the Governor of KY?
7. What is like to be Governor? Describe a typical day.
8. What was MOST stressful/challenging about being Governor?
9. Did you enjoy being Governor and what do you think was your greatest accomplishment?
10. If you could re-live part of your career over, which part would it be?
11. How would you like to be remembered generations from now?

## New Viewing and Updating your Profile

You have the ability to feature profile information on the Holler. You can view profile information for any user that has updated their profile by clicking on their username and then clicking on Profile.

## Repeat Tagging a Post

The Holler social network has always allowed you to tag your friends in posts using the @ symbol, but we've made some improvement this week to make it much easier! When you are going to post to the Holler, simply type the @ symbol and the site will pull up possibilities of users you can tag in posts. The more letters you type, the more the site will narrow down the possibilities. Tagging users in posts will send a notification to their email letting them know they have a new update on the site. This is a great feature to use for giving credit, asking questions, or to quickly get someone's attention. Log into the Holler and start tagging!

The screenshot displays the Holler website's header with the logo and navigation links. Below the header is the 'SITE-WIDE ACTIVITY' section. A text input field contains the text 'Happy Birthday @f'. A dropdown menu is open, showing two suggestions: '@finnegan' (Finnegan) and '@stoley0021' (Stephanie Foley). A red circle highlights the input field and the dropdown menu, with a red arrow pointing to the '@' symbol. Below the input field are icons for adding photos, videos, and links. To the right of the input field is a dropdown menu set to 'My Profile' and a 'Post Update' button. At the bottom of the page, there is an RSS link and a 'SHOW: Everything' dropdown menu.

## Repeat Post in Multiple Hollers from One Place

Whether you belong to one holler or all of them, there is one very easy way to post across the site. Once you log in, click activity in the upper right menu. Once the activity stream loads you are able to type an update or post. By default this feature posts to your own profile, but clicking the dropdown next to the “Post Update” button will allow you to post in any holler you are a member. This is a really easy and fast way to engage in the site and to share what you’re working on!

## New & Noteworthy

### [Student Portal and Productivity Tools for Teachers](#)

The wait is over! Teachers and students around the country now have full-access to PBS LearningMedia's new student portal and productivity tools. These new tools make it easy to create personalized learning experiences for students to explore inside and outside of the classroom. [See them here.](#)

### [700+ Spanish-Language Resources](#)

PBS LearningMedia now offers over 700 Spanish-language resources designed to strengthen students' language skills and help bilingual learners deepen their engagement with content. [Explore the new resources!](#)

### [Flipped Day 2014](#)

Planning to celebrate Flipped Day on 10/1 but still hunting for content? Our special "flipped" collection is packed with resources that you can readily integrate into your next flipped lesson. [Visit the collection.](#)

## APP of the Week by Jeff Coots

The Kahoot! logo, featuring the word "Kahoot!" in white, bold, sans-serif font on an orange rectangular background.

Repeat

### *How do we engage all students/staff with questioning?*

**Teachers** - How many of you have asked a question and every student in the classroom raised their hand? I wish that was the case, but it wasn't in my class. Very few raised their hands and it seemed to be the same students each time. I used

several questioning techniques, but I still felt that I was not getting the engagement that I wanted.

**Administrators** - During staff meetings and training sessions, have you noticed some staff members who are seldom engaged? They usually don't ask questions or provide feedback.

***In both cases wouldn't it be great to involve all members?***

During one of our Mondo Pad training sessions, I noticed the same thing happening. However, when technology was integrated, things changed. The audience (teachers and administrators) became more engaged through a gaming type experience. Questions were posed through technology and individuals responded using whatever electronic device they had (iPhone, Android, Laptop, etc...). Not only did the engagement go up, but data was being collected that could be used to drive the training (or in a classroom, the instruction). This was all due to an APP called "**Kahoot!**" that was introduced to the attendees by Jeff Sebulsky, STLP Program Manager in the Office of KIDS at the Kentucky Department of Education.

**Link:** <https://getkahoot.com>

**Getting Started:**

1. 1<sup>st</sup> Create an Account (If you have an account go to part 2)
  - a. Follow the link: <https://getkahoot.com>
  - b. Select "**Get My Free Account**"
  - c. From the dropdown box "What's Your Role?" choose your role.

- d. Once selected, the final part of the registration appears. Input your information and create your account. You will receive an email from the company once created (a few minutes).

The registration form is divided into two sections. The first section, labeled '1', is titled 'WHAT'S YOUR ROLE?' and contains a dropdown menu with 'I'm a teacher' selected and a text input field for 'School or University'. The second section, labeled '2', is titled 'YOUR ACCOUNT DETAILS' and contains three text input fields for 'Username', 'Email', and 'Password'. A purple 'CREATE ACCOUNT' button is at the bottom.

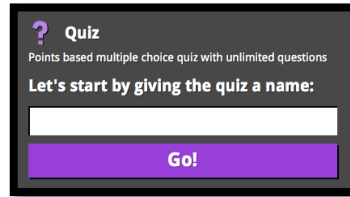

2. Sign-In (Already have an account)  
a. Use your email address and password

The sign-in form is titled 'SIGN IN' and 'WITH YOUR EMAIL'. It features two text input fields: 'Username or email' and 'Password'. A purple 'SIGN IN' button is located at the bottom.

3. Create New Kahoot!  
a. There are 3 Types of Kahoot! you can make. Select one.  
i. Quiz  
ii. Discussion  
iii. Survey

The 'Create new Kahoot!' screen displays three options: 'Quiz' (represented by a question mark icon), 'Discussion' (represented by two speech bubbles), and 'Survey' (represented by a bar chart icon).

b. Provide a name and Click GO!

A screenshot of a quiz creation interface. At the top, it says "Quiz" with a question mark icon. Below that, it says "Points based multiple choice quiz with unlimited questions". The main instruction is "Let's start by giving the quiz a name:" followed by a text input field. Below the input field is a purple button labeled "Go!".

c. Create your Question (Below are things you need to do)

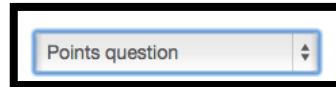

i. Provide the question first.

A screenshot of a question editor interface. It shows a text input field with the label "Question 1" to its left. Above the input field is a toolbar with icons for Bold (B), Italic (I), Superscript (x²), Subscript (x₂), and Symbols (Ω).

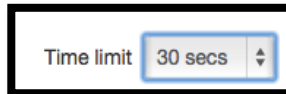

Once you click in the box, you will see a popup above the box, which provides you the following tools:

- Bold
- Italic
- Superscript
- Subscript
- Symbols

ii. Select: Either Points Question or No Points Question

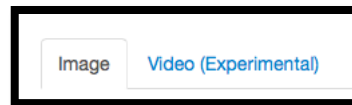

A screenshot of a dropdown menu with the text "Points question" and a downward arrow icon.

iii. Time Limit: Select one of the values 5 to 120 seconds

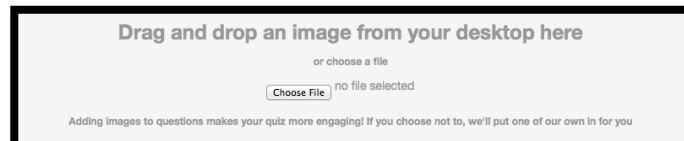

A screenshot of a dropdown menu with the text "Time limit" and "30 secs" selected, with a downward arrow icon.

iv. Add images or YouTube Videos (Optional).

Select either:

A screenshot of two buttons: "Image" and "Video (Experimental)". The "Video (Experimental)" button is highlighted in blue.

You can also add images that may enhance the question. For a math teacher they may put in a graph that helps the students visualize the problem.

A screenshot of an image upload interface. It says "Drag and drop an image from your desktop here" in bold. Below that, it says "or choose a file". There is a "Choose file" button and the text "no file selected". At the bottom, it says "Adding images to questions makes your quiz more engaging! If you choose not to, we'll put one of our own in for you".

You can also add YouTube videos that may enhance the question.

Note: iPads may have some problems with video playback.

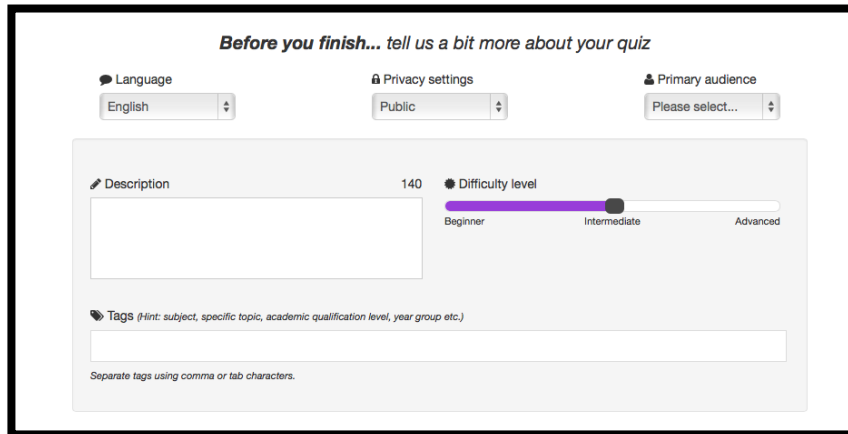

- v. Now add your answers to the question and select the *Correct* answer. Four answer choices at a maximum.

- vi. Finally, either select one of the following:
  1. Delete Question (Delete the question)
  2. Add Question (Want to ask more than 1 question)
  3. Cancel
  4. Save & Continue (Do this if you are finished)

- d. After selecting "Save & Continue," add in the information to complete Kahoot!
  - i. Language
  - ii. Privacy Setting
    1. Public
    2. Private
  - iii. Primary Audience: School, University, etc...
  - iv. Description
  - v. Difficulty level
  - vi. Tags

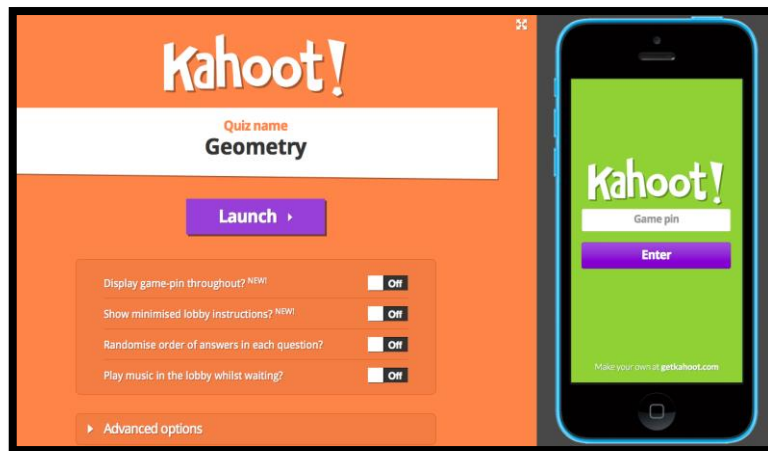

- e. Save and Continue

- f. On this screen, you can add a cover for the question. You can also put a video from YouTube.
- g. Click Done.
- h. Finally, you have the following options
  - i. Play Now (If you are ready to start)

- ii. Preview (Very cool, because it allows you to see and play the game from the trainer and see what the audience sees on a device) – **DO THIS FIRST**

- iii. Edit (Go back and edit the question)
- iv. Share (To share they must have an account on Kahoot!)

#### 4. Time to Play

- a. At the top, either select “Me” (The number beside your name tells you the number of Kahoot! you have) or “Public” and search for a Kahoot! that has already been created.

- i. Selecting Me
  1. Options
    - a. Play, Favorite, or Share
    - b. For example, by rolling the mouse over the Geometry Kahoot! additional items appear
      - i. Edit
      - ii. Duplicate
      - iii. Delete
      - iv. Make Public

- ii. By Selecting Public
  1. You have several options to search
    - a. All
    - b. Most Plays
    - c. Most Players
    - d. Most Favorites
    - e. Most Shares
    - f. Search Field
      - i. Audience (School, university, etc...)
      - ii. All Kahoots! (Quiz, Discussion, Survey)

### **Additional Information & Tips:**

1. Download the tutorial document from Kahoot!  
[https://getkahoot.com/tutorials/Kahoot\\_Tutorials.pdf](https://getkahoot.com/tutorials/Kahoot_Tutorials.pdf)
2. Check out the Kahoot!s from the Public to see what has already been created
3. Test it out before you demo it with your students or staff
4. Share successes with others on the holler. [www.theholler.org](http://www.theholler.org)

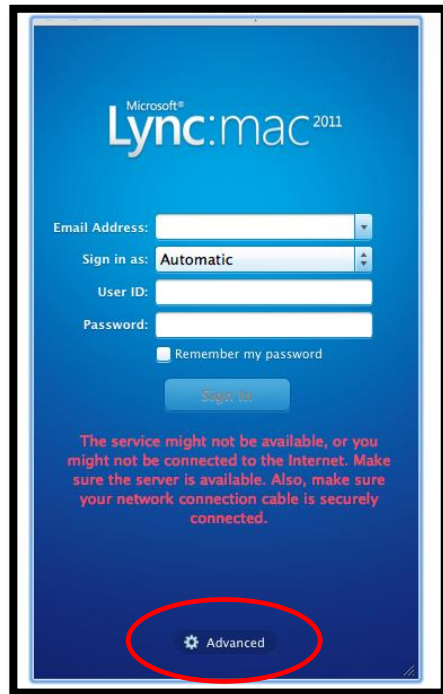

## **ARI Tech Tips**

### **Repeat Enabling Lync on Macbooks “Additional Step”** By Jeff Coots

When installing Lync on a Mac for the first time there is an additional step. If not performed Lync will not allow you to login.

At the bottom of the Lync Login look for the Advanced link and click:

**On the popup window, you will need to click Manual Configuration and enter the following information:**

Internal Server Name: sipdir.online.lync.com:443

External Server Name: sipdir.online.lync.com:443

**Now you can log into Lync.**
